CLASSEN DESIGN YOUR LIFE

Discover the world(s) of CLASSEN. Let yourself be inspired by one of the most extensive laminate flooring collections on the market. From the classic wooden board format to XL formats. The variety of CLASSEN formats is convincing – no less than the impressive smooth and textured surfaces. And not least by more than 80 decors in total.

All CLASSEN laminate floorings are produced sustainably with low emissions and all have been awarded the German Blaue Engel ("Blue Angel") environmental label.

ESSENCE 4V

THE 12MM THICK LAMINATE FLOORINGS ARE REALLY STRONG

in the truest sense of the word. And in every respect. A variety of impressive, authentic decors and high-quality textured surfaces characterise these laminate floorings in CLASSEN. And despite the considerable thickness, they are also easy to handle and thus also easy to lay.

10 MM THICKNESS SPEAKS FOR ITSELF:

Robustness and stability. CLASSEN has three collections with this thickness, all of which are available as 6 inch narrow boards. In combination with different surfaces and textures, decors with authentic designs, with bevel, numerous options open up for elegant and varied laying patterns.

8-MM - DIVERSITY

CLASSEN presents itself with a total of seven collections, 8 mm thick. The diversity begins with innumerable decors and decor colours and is supplemented by the decor surfaces with different gloss levels, from matt to gloss. The portfolio of these 8 mm collections is rounded off by the bandwidth of formats, from narrow to extra wide.
